

Geochemistry, Mineralogy and Petrology

Volume 38 • Sofia • 2001

Bulgarian Academy of Sciences

Contents

Nikolay V. Vladikin, Liudmil A. Grozdanov, Ivan K. Bonev – Chemical composition and geochemical characteristics of the Svidnya magmatic potassic-alkaline association, Western Stara Planina Mountain.....	3
Thomas Kerestedjian, Ivan K. Bonev – Complex argentopentlandite- mackinawite inclusions in chalcopyrite: A solid state exsolution mechanism.....	23
Zdravko Tsintsov – Genetically indicative features of Pt-Fe and Os-Ir-Ru alloy crystals from placers in SW Bulgaria.....	35
Rossitza D. Vassileva, Ivan K. Bonev – Manganoan amphiboles from the skarn-ore Pb-Zn deposits in the Madan district, Central Rhodopes, Bulgaria.....	45
Vassilka Mladenova, Thomas Kerestedjian, Dimitrina Dimitrova – Ag-Cu-Pb-Bi mineralization from the Svishti Plaz gold deposit, Central Balkan Mountain, Bulgaria.....	55
Angel Kunov, Petko Petrov – Beaverite from the Chala gold-base metal ore deposit: A new mineral for Bulgaria.....	67
Simeon Jančev - Peculiar antimony-bearing minerals of the spinel group from the metamorphic rocks near Nežilovo village, Macedonia.....	73
Eugenia Tarassova, Nikola Zidarov, Nelly Khaltakova – I-type granitoids from the Belassitsa Mountain, SW Bulgaria.....	79
Vassil Arnaudov – Beryllium in beryl-bearing pegmatites from the Rila Mountain, Bulgaria.....	89
Atanas Hikov – Metasomatic zonality and trace element geochemistry in hydrothermally altered Late Cretaceous volcanics at Pesovets Hill, Panagyurishte area.....	101
Hercinta Belmustakova, Yordan Malyakov – A late intrusive phase of the Gramatikovo pluton, Strandja Mountain.....	113
Thomas Kerestedjian, Emile Alkalai – The mineral identification program MinMatch: A solution of some principal problems in the use of mineralogical databases.....	121
